

Criminology

Pre-induction Activity

Welcome to Criminology!

Please complete the tasks below to prepare for your first week.

Different types of crimes

Did you know that Criminology is an inspiring subject for those interested in the field of crime and deviance? It opens many career opportunities in policing, forensics and pathology.

To help understand crime, we will look at 5 different types of crimes;

1. White collar crime
2. Technological crime
3. Hate crime
4. Honour crime
5. Domestic abuse

Task!

To build your knowledge can you research and produce a 100-word explanation for each type of crime above and give an example of each one. Save your work for when you start college.
